

# OneChurch... How?

How will we see our vision fulfilled?

How can we play our part?

We want to see at least 10% of Harrow following Jesus by 2030. In order for God to transform Harrow we are praying that he would start with us and impact those around us.

**This is HOW we are doing it**

 **OneChurch**  
Harrow

# Circles

are where we **GROW** in faith together

---

Circles are groups of 3 or 4 people meeting regularly. Some meet online, some in-person. Times are defined by each group to suit their needs.

These are the core places that we wrestle with the Bible and see how it speaks into our relationships and daily life. We learn to listen to God and to one another. We celebrate what God has been doing and pray that He would do much more.

*Being in a Circle has helped me to grow in my faith throughout the week and keeps me accountable to connect with God in my day to day life.*

# Services

are where we **GATHER** to celebrate God together

---

We connect weekly with God in a variety of venues and ways: to sing to our loving God, to seek his spiritual direction, to wait on his transforming presence and to pray that he would impact our world. Everyone is welcome and everyone has a part to play.

# Everywhere Groups

are where we GO in love together

---

Once a month we do Church differently. Either on Sunday or during the week, we join God in connecting with our community, through acts of compassion and with messages of hope.

Groups come in all shapes and sizes, from gardening groups to neighbourhood lunches and street outreach. You can start a group of your own or join others already in action.

*When we had the opportunity to go 'door-knocking' I was very nervous. Inevitably, some people did not come to their doors but one lady invited us into her home to pray for her young children and for her husband, who is seeking work.*

# Church Plants

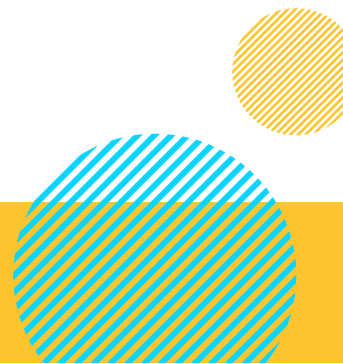

are where we BUILD new worshipping communities

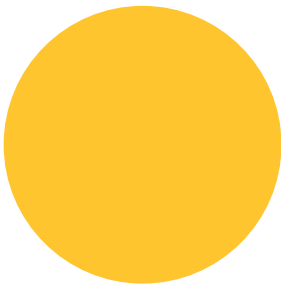

---

We want to reimagine what it means to be Church, planting many different expressions of Church in schools, coffee shops, homes and elsewhere.

We already have 2 Church plants: HopeChurch Harrow View and Mosaic Church and we long to see more. Whether we pray for them, give to them or become part of these new communities - we all get to plant.
